In regards to the RM#8658 on Hearing Aid Compatible Phones

I am a senior citizen who needs to have a hearing aid compatible cellular phone with me when I drive alone at night and for my protection if I am in harms ways. Cellular phones are a blessing for everyone except for the people who must wear hearing aids and cannot use a digital cellular phone. All the cellular phones companys are going digital and we hard of hearing people who need them are being left out. Please enforce the law that all digital phones being hearing aid compatible for those people who wear hearing aids and have a cochlear implants.

Thank you for listening.
